

## TASK PERFORMANCE 4 PRELIMS

ABLERO, ANGELICA A.

SYNTAX:

```
package linkedlistsongs;
import java.util.LinkedList;
public class LinkedListSongs {

    public static void main(String[] args) {
        int index;
        LinkedList <String> songs = new LinkedList<String>();
        songs.add("Scientist");
        songs.add("Tahanan");
        songs.add("Pagsamo");
        songs.add("Title");
        songs.add("MY WAY");
        System.out.println(songs);

        LinkedList <String> artist = new LinkedList<String>();
        artist.add("Twice");
        artist.add("Adie");
        artist.add("Arthur Nery");
        artist.add("Meghan Trainer");
        artist.add("Fetty Wap");
        System.out.println(artist);

        LinkedList <String> Playlist = new LinkedList<String>();
        index = 0;

        for (String strArtist: artist){
            String PlayList = songs.get(index) + " - " + strArtist;
            Playlist.add(PlayList);
            index++;
        }
        for (String display_list: Playlist){
            System.out.println(display_list);
        }
    }
}
```

OUTPUT:

```
run:
[Scientist, Tahanan, Pagsamo, Title, MY WAY]
[Twice, Adie, Arthur Nery, Meghan Trainer, Fetty Wap]
Scientist - Twice
Tahanan - Adie
Pagsamo - Arthur Nery
Title - Meghan Trainer
MY WAY - Fetty Wap
BUILD SUCCESSFUL (total time: 0 seconds)
```
